Rachel Steidley, Director of Relations
Sebastian Hernandez, P.E. ('14)
Trevor Moore, P.E. ('14)
Wayne Mausbach, P.E. ('69)

A MESSAGE FROM EAA BOARD MEMBERS

Cougar Engineers,

The University of Houston Engineering Alumni Association (EAA) is concluding another successful year promoting the contributions and accomplishments of Cougar Engineers. Our organization continues to focus efforts on the three mission pillars: Champion, Unit and Support the Cullen College of Engineering and fellow engineering alumni.

- **Champion, the UH Cullen college of engineering and promote the UH engineering brand through community outreach and industry engagement**
- **Support, current UH engineering students through scholarships and mentoring**
- **Unite, UH engineering alumni by honoring career achievements in their respective disciplines and industries**

A look back on 2022 marks EAA's efforts to honor its mission. Below are some of the 2022 key highlights,

- **Added 5 new board members and 2 student liaisons with the purpose of strengthening foundation of the EAA board**
- **Organized 11 events promoting the UH Engineering College, Students and Alumni Association**
- **Distributed \$34,000 to 58 Cullen College students through annual scholarships and industry partnership awards**

UH EAA would like to express its gratitude for everyone who participated or contributed to the organization success throughout the year. This level of engagement with students and alumni is only possible with financial support and volunteers like you.

We encourage alumni, students, and faculty to get involved. Make 2023 the year that you will promote the Cougar Engineering Brand!

Thank you,
UH EAA Board
